

SOUTHEAST FLORIDA REGIONAL COMPACT

CLIMATE CHANGE

RCAP IMPLEMENTATION WORKSHOP

August 28, 2014
10 AM – 4:30 PM

Anne Kolb Nature Center | 751 Sheridan Street | Hollywood

Adaptation Action Area Planning

AGENDA

Pursuant to Florida Statutes 163.3164(1), Adaptation Action Area (AAAs) or “adaptation area” means a designation in the coastal management element of a local government’s comprehensive plan which identifies one or more areas that experience coastal flooding due to extreme high tides and storm surge, and that are vulnerable to the related impacts of rising sea levels for the purpose of prioritizing funding for infrastructure needs and adaptation planning. The purpose of this workshop is to provide planners and other local government professionals with information and ideas for implementing AAAs.
