Q4. Describe the progress your local/tribal government has made related to Mitigation Action #1. Please select all that apply. ▲

In the past several years we have advanced/completed work related to this priority action that is still relevant today.

Q5. Provide a brief description of the work you are advancing related to Mitigation Action #1. This is not meant to be an exhaustive list, but rather a list of the most impactful actions. ▲

For the City of Weston, some actions that apply for mitigation action 1 include: working toward electrifying our fleets, mainly at Public Works, Upgrading and planning for solar panels, as well as charging stations for electric vehicles. Studies are also done for traffic streamlining and adding bike lanes so it can be more accessible and safer for residents. Water Conservation: The city has implemented water conservation measures to ensure sustainable water use. This includes promoting the use of drought-resistant plants in landscaping and using water from the local lakes to irrigate the landscapes. Also using rain sensors to turn off automatic irrigation if over a certain amount of rain has fallen, helps limit how much water is used.

Q6. Is equity being embedded into Mitigation Action #1? Please indicate your progress toward embedding equity in this action with "1" indicating no progress and "5" indicating significant progress. Below are several suggested ways that a local/tribal government can embed equity into this climate action provided as supportive guidance. This is not meant to be exhaustive of every possible action. Respondents can include actions not included in this list. For more guidance, visit the full document on the Compact website. Ensure the inventory and/or goal setting document(s) is/are publicly available and is interpreted for commonly spoken languages in the municipality as well as screen-reader compatible. Build partnerships with community-based organizations, HOAs, and community-based forums to help define, design, and advance the work as well as spread the word. Ensure an equity first framework, so that GHG emission reductions do not come at the expense of low income and/or communities of color. Use a Racial Equity Toolkit to consider impacts before taking on any project. Include stipends/payments for volunteers in your budget. Make sure budgeted meeting costs include childcare, meals, and/or interpretation services. Utilize multiple engagement methods, e.g. online and in-person. Utilize existing relationships with other municipal departments. Acknowledge that elderly and low-income populations are less likely to engage with online promotion. Utilize in-person outreach (flyers, canvassing, announcement at an existing meeting, radio stations, TV, flyers at churches or community center, etc.) for these groups. ▲

3

Q7. Please provide a brief explanation of the ways in which you are embedding equity into Mitigation Action #1. ▲

By having public meeting that all residents can attend and voice their concerns, as well as informing residents on our websites about them so it is accessible to all. They are also translated if need be. Mail is sent out to residents and/or landlords when changes are made or to notify them of meetings that apply to them.

Q8. Please provide any supporting documents under Mitigation Action #1. Max upload of five (5) files only. *Did not answer* ▶

Q9. Please indicate as to why you've been unable to advance activities related to Mitigation Action #1? Please select all that apply. *Skipped due to logic* ▶

Q10. What resources could assist you in advancing this action? *Skipped due to logic* ▶

Q11. Describe the progress your local/tribal government has made related to Mitigation Action #2. Please select all that apply. ▲

In the past several years we have advanced/completed work related to this priority action that is still relevant today.

Q12. Provide a brief description of the work you are advancing related to Mitigation Action #2. This is not meant to be an exhaustive list, but rather a list of the most impactful actions. ▲

Weston is part of the Broward County PACE program, which offers financing options for energy efficiency and conservation projects. This includes improvements like rooftop solar panels, energy-efficient air conditioning units, and impact windows. Green Building Standards: Weston encourages the construction of energy-efficient buildings by adopting green building standards. This includes the use of sustainable materials, energy-efficient designs, and renewable energy sources. On the city infrastructure side, we have been working on, and currently continuing to upgrade the lights in our city, whether it's the lights in our city facilities, as well as our streetlights, to LED.

Is equity being embedded into Mitigation Action #2? Please indicate your progress toward embedding equity in this action with “1” indicating no progress and “5” indicating significant progress. Below are several suggested ways that a local/tribal government can embed equity into this climate action provided as supportive guidance. This is not meant to be exhaustive of every possible action. Respondents can include actions not included in this list. For more guidance, visit the full document on the Compact website. Engage communities most impacted by energy inefficiency in planning and prioritizing community projects/action Develop partnerships with community members or organizations to help track energy efficiency data and prioritize improvements Involve the people most impacted by energy inefficiency, build relationships, and co-create path forward Commit municipal savings from solar and energy efficiency being reinvested in wealth-building initiatives in disinvested communities Ensure policies/permits for energy saving installations (green roofs, rooftop solar, storm hardening) are feasible, and if possible expedited and fee-free Allocate funds annually to pay for outreach campaigns to ensure all communities are aware of energy efficiency programs and assistance Work with local community-based organizations to be an education partner on energy efficiency behaviors and techniques/installations

3

Q14. Please provide a brief explanation of the ways in which you are embedding equity into Mitigation Action #2.

This program is accessible to whomever can access the website and residents are able to go to city hall to find out more information on programs like this. There are also commission meeting that people are able to voice their concerns or questions. Also, whenever there are upgrades to lights in a facility or a change to a streetlight, it helps the residents feel safer at night, as the illumination is better and more environmentally conscious.

Q15. Please provide any supporting documents under Mitigation Action #2. Max upload of five (5) files only.

Q15 a. Please provide any supporting documents under Mitigation Action #2. Max upload of five (5) files only.:

23-011 Vista Park LED Upgrades Jan 2023.pdf

Q15 b. Please provide any supporting documents under Mitigation Action #2. Max upload of five (5) files only.:

22-001 LED Parking Lot Lighting Upgrades.pdf

Q15 c. Please provide any supporting documents under Mitigation Action #2. Max upload of five (5) files only.:

22-021 Racquet Club Court Lighting.pdf

Q15 d. Please provide any supporting documents under Mitigation Action #2. Max upload of five (5) files only.:

Q15 e. Please provide any supporting documents under Mitigation Action #2. Max upload of five (5) files only.:

(Did not answer)

Q16. Please indicate as to why you've been unable to advance activities related to Mitigation Action #2? Please select all that apply. *Skipped due to logic*

Q17. What resources could assist you in advancing this action? *Skipped due to logic*

Q18. Describe the progress your local/tribal government has made related to Mitigation Action #3. Please select all that apply.

In the past several years we have advanced/completed work related to this priority action that is still relevant today.

Q19. Provide a brief description of the work you are advancing related to Mitigation Action #3. This is not meant to be an exhaustive list, but rather a list of the most impactful actions.

The City of Weston is currently implementing the use of solar energy by having both public and private use EV Chargers, and small device charging at the parks. We also use solar timers for our streetlights, so we do not have day burners on when they are not needed

**Q20.** Is equity being embedded into Mitigation Action #3? Please indicate your progress toward embedding equity in this action with “1” indicating no progress and “5” indicating significant progress. Below are several suggested ways that a local/tribal government can embed equity into this climate action provided as supportive guidance. This is not meant to be exhaustive of every possible action. Respondents can include actions not included in this list. For more guidance, visit the full document on the Compact website. The municipality should model best practices regarding solar energy i.e. identifying which parks, public places, or schools currently utilize or plan to utilize solar energy. Record the savings before and after installation Include community leaders and members in program design Consider ways renters can reap benefits of solar, e.g. community solar projects Solar permitting should be expedited and fee-free Devote money/personnel to support and promote solar co-ops Provide education on lower cost ways for residents to go solar, such as SolarTogether and existing solar co-ops

3

**Q21.** Please provide a brief explanation of the ways in which you are embedding equity into Mitigation Action #3.

Where we are implementing the solar chargers are for public use. We also have publicly open commission meetings for residents to voice their opinions, recommendations, and concerns. On our city website, we also have resources and tips for residents if they are thinking about transitioning to solar

**Q22.** Please provide any supporting documents under Mitigation Action #3. Max upload of five (5) files only. *Did not answer*

**Q23.** Please indicate as to why you've been unable to advance activities related to Mitigation Action #3? Please select all that apply. *Skipped due to logic*

**Q24.** What resources could assist you in advancing this action? *Skipped due to logic*

**Q25.** Describe the progress your local/tribal government has made related to Mitigation Action #4. Please select all that apply.

In the past several years we have advanced/completed work related to this priority action that is still relevant today.

**Q26.** Provide a brief description of the work you are advancing related to Mitigation Action #4. This is not meant to be an exhaustive list, but rather a list of the most impactful actions.

Including the EV chargers for public use, the City of Weston also has private chargers for official use/ employees. We are transitioning to electric vehicles at public works, and by increasing the ev chargers, more gas vehicles will be off of the road.

**Q27.** Is equity being embedded into Mitigation Action #4? Please indicate your progress toward embedding equity in this action with “1” indicating no progress and “5” indicating significant progress. Below are several suggested ways that a local/tribal government can embed equity into this climate action provided as supportive guidance. This is not meant to be exhaustive of every possible action. Respondents can include actions not included in this list. For more guidance, visit the full document on the Compact website. Involve the community in evaluation of this action’s progress Evaluate how low-income and/or communities of color access mobility and their relative air pollution exposure burden, and utilize this information to inform any EV strategy for the municipality Offer technical assistance to community groups working to advance this goal Offer streamlined permitting, lower to no fees, and other incentives for EV charging projects Analyze fuel and maintenance savings from EV switch and use the savings to create a charger fund Meetings/workshops for education/outreach should take place at a variety of times, including evenings, offer food and childcare to reduce barriers to attendance and participation. The meetings should be advertised by a community-based communications and outreach consultant/partner who is from the targeted community(ies). The advertising efforts should include a variety of mediums and start at least a week prior to the meeting. The communications/outreach consultant should reach at least 300 people in advertising for the meeting

3

**Q28.** Please provide a brief explanation of the ways in which you are embedding equity into Mitigation Action #4.

By making a good portion of the chargers available to the public, as well as using electric vehicles ourselves, the residents can see the steps we are taking, and may get one of their own.

 **Q29.** Please provide any supporting documents under Mitigation Action #4. Max upload of fives (5) files only. *Did not answer* ▶

**Q30.** Please indicate as to why you've been unable to advance activities related to Mitigation Action #4? Please select all that apply. *Skipped due to logic* ▶

 **Q31.** What resources could assist you in advancing this action? *Skipped due to logic* ▶

**Q32.** Describe the progress your local/tribal government has made related to Mitigation Action #5. Please select all that apply. ▲

---

In the past several years we have advanced/completed work related to this priority action that is still relevant today.

 **Q33.** Provide a brief description of the work you are advancing related to Mitigation Action #5. This is not meant to be an exhaustive list, but rather a list of the most impactful actions. ▲

---

The city of Weston has focused on upgrading/ putting bike lanes all over the city, as we are a big biking city, and a big percentage of our residents use their bike. We have installed bike fix-it stations all around the city and we also have a few bike counter signs across the city. We have also been upgrading our bus stops to have led lights and covers for residents with the bus schedule to make it more accessible and reliable. If we are making any road changes, for example, adding in a cul de sac, there is a multimodal charette where residents are highly encouraged to partake so they can voice their concerns. There are signs put up at bus stops and by bike lanes to make sure the population most affected is aware of changes.

 **Q34.** Is equity being embedded into Mitigation Action #5? Please indicate your progress toward embedding equity in this action with “1” indicating no progress and “5” indicating significant progress. Below are several suggested ways that a local/tribal government can embed equity into this climate action provided as supportive guidance. This is not meant to be exhaustive of every possible action. Respondents can include actions not included in this list. For more guidance, visit the full document on the Compact website. Meaningfully include community members who rely on public transit as a primary form of transportation at the decision-making table when it comes to accessing mobility needs and planning future changes/improvements To encourage adoption of working from home to reduce overall VMT, partner with telecommunications company to ensure there is access throughout the municipality to high-speed internet and that communities are not left behind in the digital divide Develop codes or policies encouraging the use of pedestrian-friendly planning options like complete streets and parks no less than ‘x’ miles from every home Ensure annual budget allocation to maintain sidewalks and build them where they don’t exist to connect low-income communities or communities of color to transit stops Host listening sessions, focus groups, and workshops to understand what is and isn’t working. Prioritize riders but also those that are unable to use public transit to understand obstacles to ridership Build programs around these solutions and include transit workers in these discussions ▲

---

4

 **Q35.** Please provide a brief explanation of the ways in which you are embedding equity into Mitigation Action #5. ▲

---

By making sure that we have multiple meetings when it has to do with transportation, and by posting signs and notifying residents of changes, everyone is aware when there is a road closure, construction, or changes.

 **Q36.** Please provide any supporting documents under Mitigation Action #5. Max upload of five (5) PDFs only. ▲

Q36 e. Please provide any supporting documents under Mitigation Action #5. Max upload of five (5) PDFs only:

(Did not answer)

Q37. Please indicate as to why you've been unable to advance activities related to Mitigation Action #5? Please select all that apply. *Skipped due to logic* ▶

Q38. What resources could assist you in advancing this action? *Skipped due to logic* ▶

Q39. Describe the progress your local/tribal government has made related to Adaptation Action #1. Please select all that apply. This should include identifying potential staff and financial resources/capacity. In some cases, staff/resources may already be supporting activities and projects that help support and advance adaptation/resilience, but not identified as such. Should sufficient internal capacity not exist, seek support from your county, other municipalities, and other potential partners and develop a plan for how your city will prioritize capacity for adaptation/resilience-building work. ▲

We have not yet begun work on this priority action.

Q40. Provide a brief description of the work you are advancing related to Adaptation Action #1. This is not meant to be an exhaustive list, but rather a list of the most impactful actions. *Skipped due to logic* ▶

Q41. Is equity being embedded into Adaptation Action #1? Please indicate your progress toward embedding equity in this action with "1" indicating no progress and "5" indicating significant progress. Below are several suggested ways that a local/tribal government can embed equity into this climate action provided as supportive guidance. This is not meant to be exhaustive of every possible action. Respondents can include actions not included in this list. Assess the capacity to include equity considerations, including community engagement & outreach Assessment includes consideration of how well prepared the community is to advance adaptation initiatives in more vulnerable/disinvested communities Assess agency understanding of inequity and historic environmental wrongs in the community (and how inequities may be exacerbated by government practices/policies). Provide training for staff, emphasizing the importance of correcting these issues and avoiding further harms in the future Assess areas of the municipality that have been disinvested or are low-income Staff has worked to build and maintain relationships and trust with community-based organizations, key thought leaders, and residents in the areas of the municipality which have been disinvested Assess and collaborate with Departments that provide/direct social services to residents or that work on equity as adaptation partners *Skipped due to logic* ▶

Q42. Please provide a brief explanation of the ways in which you are embedding equity into this adaptation action? *Skipped due to logic* ▶

Q43. Please provide any supporting documents under Adaptation Priority Action #1. Max upload of five (5) files only. *Skipped due to logic* ▶

Q44. Please indicate as to why you've been unable to make progress in Adaptation Action #1? Select all that apply. ▲  
Internal competing programs and therefore not a key priority

Q45. What resources could assist you in advancing this action? ▲  
A dedicated team that their main priority is to focus on sustainability, resilience, and the outreach so our residents are more aware and involved on common goals of the city. As of now, it is people with other job descriptions that are assigned to look into/ complete a singular project instead of a cohesive, collaborative

Q46. Describe the progress your local/tribal government has made related to Adaptation Action #2. Please select all that apply. Conduct vulnerability analysis of hazards related to climate change including, but not limited to, sea level rise, tidal flooding, saltwater intrusion, extreme weather, heat. The analysis should assess exposure and sensitivity of various assets including, but not limited to critical infrastructure, communities/populations, historic/cultural assets, transportation, natural resources, and economic assets. Assessment should seek to identify what factors contribute to elevated exposure and sensitivity, and what physical, social, institutional, human, and financial capacities exist to adapt, and where there are gaps. ▲

We have not yet begun work on this priority action.

**A** Q47. Provide a brief description of the work you are advancing related to Adaptation Action #2. This is not meant to be an exhaustive list, but rather a list of the most impactful actions. *Skipped due to logic* ▶

**A** Q48. Is equity being embedded into Adaptation Action #2? Please indicate your progress toward embedding equity in this action with “1” indicating no progress and “5” indicating significant progress. Below are several suggested ways that a local/tribal government can embed equity into this climate action provided as supportive guidance. This is not meant to be exhaustive of every possible action. Respondents can include actions not included in this list. Consider all properties, people, and communities equally in the Vulnerability Analysis or Assessment. The methodology should not prioritize or focus on areas with higher taxable value. If study scope includes proposing adaptation strategies, those strategies considered should be prioritized based on potential to reduce risk to human life and other key indicators based on community members’ experiences. Include opportunities for meaningful community input as part of the vulnerability analysis process. Use community feedback and information based on stakeholder experiences in the data analysis. Incorporate community feedback via asset-mapping exercises, seek assistance with prioritizing/ weighing criteria for the vulnerability assessment, ground-truth the findings of the analysis, etc. Include a social vulnerability assessment as part of the overall vulnerability assessment. At minimum, Federal SOVI or SVI maps can be used, but ideally the assessment should be rooted in the community itself. Depending on the type of project, the following social factors may be relevant to include in your analysis: redlining, low- and moderate-income populations, energy burden, rent/cost of living burden, language spoken at home, vehicles per household, elderly residents, average year built of housing, and tree canopy, among others. Include an assessment of organizations in the community that may help advance the municipality’s adaptive capacity, or organizations which will help communicate with populations frequently unengaged by government. *Skipped due to logic* ▶

**A** Q49. Please provide a brief explanation of the ways in which you are embedding equity into this adaptation action? *Skipped due to logic* ▶

**A** Q50. Please provide any supporting documents under Adaptation Priority Action #2. Max upload of five (5) files only. *Skipped due to logic* ▶

Q51. Please indicate as to why you've been unable to make progress in Adaptation Action #2? Select all that apply. ▲  
Other (Please specify) : Not planned as of now

**A** Q52. What resources could assist you in advancing this action? ▲  
Unfortunately, it has not been prioritized due to other planned projects and contractor deals.

Q53. Describe the progress your local/tribal government has made related to Adaptation Action #3. Please select all that apply. ▲  
We have not yet begun work on this priority action.

**A** Q54. Provide a brief description of the work you are advancing related to Adaptation Action #3. This is not meant to be an exhaustive list, but rather a list of the most impactful actions. *Skipped due to logic* ▶

**A** Q55. Is equity being embedded into Adaptation Action #3? Please indicate your progress toward embedding equity in this action with “1” indicating no progress and “5” indicating significant progress. Below are several suggested ways that a local/tribal government can embed equity into this climate action provided as supportive guidance. This is not meant to be exhaustive of every possible action. Respondents can include actions not included in this list. Provide multiple benefits or co-benefits in disinvested communities based upon community input. Prioritize the solutions/resources in the Plan by their potential to reduce risk rather than by geography, property values, or income. Engage and collaborate with the community as part of the development of the Plan. Ensure at least 50% of the solutions come directly from community members and/or organizations that represent community members from disinvested communities. Use an Equity Toolkit to identify and correct any unintended impacts (and potential benefits) of actions within that Plan on low-income disinvested communities, or communities of color. Ensure the toolkit for each action is made public for accountability and discussion. Develop metrics and milestones that are reported on publicly so the municipality can be held accountable. Set expectations with the community on the format and frequency of reporting. Ensure solutions sufficiently address all climate threats. Take into consideration how climate threats affect individuals and neighborhoods differently (based on various factors including social determinants of health). Include a mix of solutions including a mix of policy and capital projects. Capital projects should include a plan and budget for upkeep and maintenance. Include strategies that protect the lives and health of outdoor workers. *Skipped due to logic* ▶

**A** Q56. Please provide a brief explanation of the ways in which you are embedding equity into this adaptation action? *Skipped due to logic* ▶

 Q57. Please provide any supporting documents under Adaptation Priority Action #3. Max upload of five (5) files only. *Skipped due to logic* ▶

Q58. Please indicate as to why you've been unable to make progress in Adaptation Action #3? Select all that apply. ▲

Other (Please specify) : Limited advancement of timely issues instead of future risks

**A** Q59. What resources could assist you in advancing this action? ▲

Studies done and comprehensive plans instead of covering bases that affect us today like hurricane season and flooding. Having a dedicated group to focus on those issues to bring them to the forefront.

Q60. Describe the progress your local/tribal government has made related to Adaptation Action #4. Please select all that apply. This may include comprehensive plans, housing initiatives, post-disaster redevelopment plans, stormwater management plans, transportation plans, and land development regulations, inclusive of low-impact development. Sea Level Rise projections should be included in all planning activities. ▲

We actively advanced activities related to this priority action in this reporting year (CY 2023).

**A** Q61. Provide a brief description of the work you are advancing related to Adaptation Action #4. This is not meant to be an exhaustive list, but rather a list of the most impactful actions. ▲

For the City of Weston, we do work towards having a stormwater plan and work closely with Broward for the management of excess water to go into the canals, and we actively let residents know.

 Q62. Is equity being embedded into Adaptation Action #4? Please indicate your progress toward embedding equity in this action with "1" indicating no progress and "5" indicating significant progress. Below are several suggested ways that a local/tribal government can embed equity into this climate action provided as supportive guidance. This is not meant to be exhaustive of every possible action. Respondents can include actions not included in this list. Engage and collaborate with the community as part of the development of the Plan. Ensure at least 50% of the solutions come directly from community members and/or organizations that represent community members from disinvested communities. Design and write the Plan to protect all communities equally and encourage risk reduction in areas most vulnerable to the impacts of climate change. The Plan also takes into account unintended consequences—such as gentrification—and provides solutions to mitigate/ diminish negative impacts posed by solutions. Include an equity statement and explicitly state how equity was included in the development of the Plan and how equity was integrated into the recommendations. For redevelopment-specific actions or plans, ensure they are designed to improve conditions and resilience for burdened or disinvested communities rather than restore them to their current condition. Use an Equity Toolkit to identify and correct any unintended impacts (and potential benefits) of any Plan, policy, or budget decision on low-income disinvested communities, or communities of color. Ensure the toolkit for each policy/plan/budget decision is made public for accountability and discussion. List the affirmative steps made to incorporate and to include community input. Proactively consider equitable relocation strategies wherever it may be necessary. Include ways to minimize/eliminate displacement and incorporate equitable outcomes for existing communities in all relevant Plans. ▲

1 - No progress

**A** Q63. Please provide a brief explanation of the ways in which you are embedding equity into this adaptation action? ▲

Limited progress on the government side, which doesn't lead to much equitable translation to the resident.

 Q64. Please provide any supporting documents under Adaptation Priority Action #4. Max upload of five (5) files only. *Did not answer* ▶

Q65. Please indicate as to why you've been unable to make progress in Adaptation Action #4? Select all that apply. *Skipped due to logic* ▶

**A** Q66. What resources could assist you in advancing this action? *Skipped due to logic* ▶

- Q67. Describe the progress your local/tribal government has made related to Adaptation Action #5. Please select all that apply. This may include improving stormwater management practices, adopting urban heat policies, updating infrastructure standards, conducting remediation of contaminated sites, and updating building codes. ▲

We actively advanced activities related to this priority action in this reporting year (CY 2023).

- Q68. Provide a brief description of the work you are advancing related to Adaptation Action #5. This is not meant to be an exhaustive list, but rather a list of the most impactful actions. ▲

Multiple infrastructure upgrades and updating of old buildings, we are trying to limit risk as well as upgrades of our pump systems for more flooding events to limit damage and risk for city goers.

- Q69. Is equity being embedded into Adaptation Action #5? Please indicate your progress toward embedding equity in this action with "1" indicating no progress and "5" indicating significant progress. Below are several suggested ways that a local/tribal government can embed equity into this climate action provided as supportive guidance. This is not meant to be exhaustive of every possible action. Respondents can include actions not included in this list. Engage and collaborate with the community as part of the development of the Plan. Ensure at least 50% of the solutions come directly from community members and/or organizations that represent community members from disinvested communities. Ensure policy is written to protect all communities equally and that it encourages risk reduction in areas most vulnerable to the impacts of climate change. The policy should also take into account unintended consequences such as gentrification and provide solutions to mitigate/diminish negative impacts posed by solutions. Policies are written to improve the resilience of disinvested communities. Policies are written to ensure equal access to new or proposed technology (e.g. public EV charging locations). Policies are written to improve conditions for disinvested communities through stronger remediation requirements or stormwater considerations. Ensure contamination is not a barrier to adaptation. Remediate past harms while working to adapt to future threats, and take those future threats (like flooding) into consideration when selecting clean-up alternatives. Apply for EPA Brownfields grants if funding is the major obstacle. Use an Equity Toolkit to identify and correct any unintended impacts (and potential benefits) of any policy on low-income disinvested communities or communities of color. Ensure the toolkit for each policy decision is made public for accountability and discussion. ▲

1 - No progress

- Q70. Please provide a brief explanation of the ways in which you are embedding equity into this adaptation action? ▲

We make sure to update residents pertaining to current policies, however, new ones are not being adopted as of yet, when they are, it will be sent to all residents, as well as posting on our website for public access.

- Q71. Please provide any supporting documents under Adaptation Priority Action #5. Max upload of five (5) files only. *Did not answer* ▶

- Q72. Please indicate as to why you've been unable to make progress in Adaptation Action #5? Select all that apply. *Skipped due to logic* ▶

- Q73. What resources could assist you in advancing this action? *Skipped due to logic* ▶

- Q74. Describe the progress your local/tribal government has made related to Adaptation Action #6. Please select all that apply. This may include living shorelines, water infrastructure, resilience hubs, parks & open spaces, urban greening, tidal valves, pump stations, road/bridge elevation. ▲

We actively advanced activities related to this priority action in this reporting year (CY 2023).

- Q75. Provide a brief description of the work you are advancing related to Adaptation Action #6. This is not meant to be an exhaustive list, but rather a list of the most impactful actions. ▲

The City of Weston has multiple Capital Improvement Projects, and a dashboard that residents can use to see our progress throughout the city. A multitude of them has to do with infrastructure plans as well. We have upgraded parks, pavilions, bridges and culverts

Is equity being embedded into Adaptation Action #6? Please indicate your progress toward embedding equity in this action with “1” indicating no progress and “5” indicating significant progress. Below are several suggested ways that a local/tribal government can embed equity into this climate action provided as supportive guidance. This is not meant to be exhaustive of every possible action. Respondents can include actions not included in this list. Engage and collaborate with the community as part of the development of the Plan. Ensure that at least 50% of the solutions come directly from community members and/or organizations that represent community members from disinvested communities. Capital projects benefit all community members equally. Low-income disinvested communities, or communities of color are prioritized (i.e. for green spaces, resilience hubs, parks etc.) Prioritize resilience capital projects by the potential to reduce risk to human life and critical infrastructure rather than based on income or tax value. Display resilience capital projects on a map with underlying layers showing demographics such as race, income, etc. to visually show that investments are not only being made to benefit high-tax value and/or waterfront properties. This map should also speak to the amount of investment in different parts of the municipality, including disinvested areas. Use an Equity Toolkit to identify and correct any unintended impacts (and potential benefits) of any capital project on low-income, disinvested communities, or communities of color. Ensure the toolkit for each project is made public for accountability and discussion. Ensure capital projects also take into account unintended consequences such as gentrification and provide solutions to mitigate/diminish negative impacts posed by solutions. Ensure the burden of public funding for capital projects is equitable across communities. Include a plan for upkeep and maintenance for any capital project. List the affirmative acts of community outreach.

3

**A** Q77. Please provide a brief explanation of the ways in which you are embedding equity into this adaptation action? ▲

By having a comprehensive dashboard available to residents, it lets them stay informed

**P** Q78. Please provide any supporting documents under Adaptation Priority Action #6. Max upload of five (5) files only. ▲
